# Content process during migrations

Challenge: How can we keep disruptions to the normal content process to a minimum during a migration?

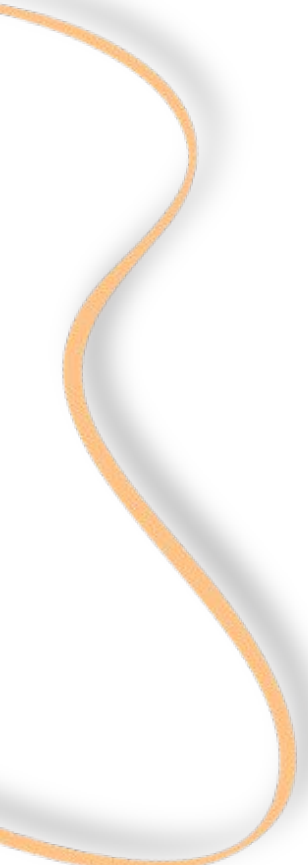

# Content process during migrations

## Points to consider

- when to migrate?
- as-is, new or optimised?
- content freeze?

# Content process during migrations

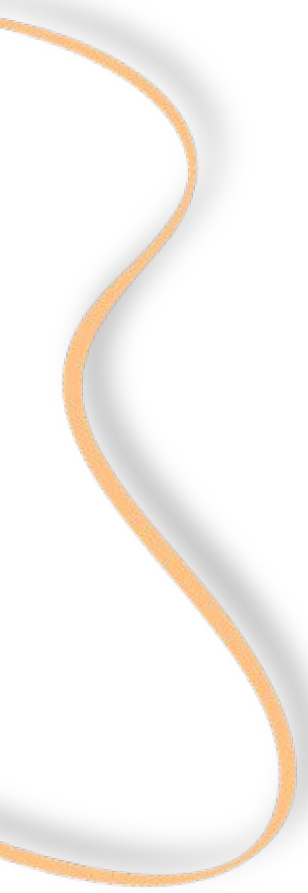

Challenge: How can we keep the quality of our content high or take it to the next level?

# Daily content process

# Content Life Cycle

- 
- A clean CMS
  - High quality content
  - Consistency in brand managing
  - Higher conversion rates

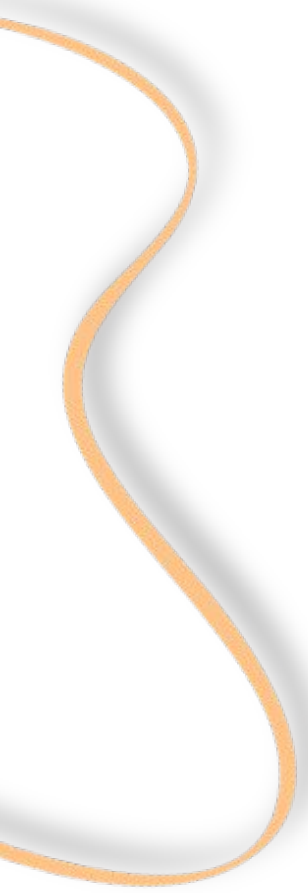

# Audit

- high bounce rate
- low amount of pageviews
- non-optimised content
- doubled or old content
- customer feedback

# Optimisation

- 
- Content copy (texts)
